Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Applicants' process of hydroxylating benzene is unobvious over the prior art of record because the prior art of record does not teach or suggest hydroxylating benzene, as presently claimed, wherein liquid benzene is fed into the reaction zone of a distillation column reactor that is equipped with a reaction zone, a distillation zone and an oxidation catalyst (placed between the reactor zone and distillation zone) and wherein an oxidant gas is fed into the distillation zone before contacting the benzene and oxidant with the oxidation catalyst to form a hydroxylated benzene product. All claims (50-137) are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
